**TERMS AND CONDITIONS FOR USE,
REPRODUCTION, AND DISTRIBUTION**

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all

other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in

the Work by the copyright owner
or by an individual or Legal Entity
authorized to submit on behalf of
the copyright owner. For the purposes
of this definition, "submitted"

means any form of electronic, verbal,
or written communication sent

to the Licensor or its
representatives, including but not limited
to

communication on electronic mailing
lists, source code control systems,

and issue tracking systems that are
managed by, or on behalf of, the

Licensor for the purpose of discussing
and improving the Work, but

excluding communication that is
conspicuously marked or otherwise

designated in writing by the copyright
owner as "Not a Contribution."

"Contributor" shall mean Licensor and
any individual or Legal Entity

on behalf of whom a Contribution has
been received by Licensor and

subsequently incorporated within the
Work.

2. Grant of Copyright License. Subject to
the terms and conditions of

this License, each Contributor hereby

grants to You a perpetual,
worldwide, non-exclusive, no-charge,
royalty-free, irrevocable
copyright license to reproduce,
prepare Derivative Works of,
publicly display, publicly perform,
sublicense, and distribute the
Work and such Derivative Works in
Source or Object form.

3. Grant of Patent License. Subject to
the terms and conditions of
this License, each Contributor hereby
grants to You a perpetual,
worldwide, non-exclusive, no-charge,
royalty-free, irrevocable
(except as stated in this section)
patent license to make, have made,
use, offer to sell, sell, import, and
otherwise transfer the Work,
where such license applies only to
those patent claims licensable
by such Contributor that are
necessarily infringed by their
Contribution(s) alone or by
combination of their Contribution(s)
with the Work to which such
Contribution(s) was submitted. If You
institute patent litigation against
any entity (including a
cross-claim or counterclaim in a

lawsuit) alleging that the Work
or a Contribution incorporated within
the Work constitutes direct
or contributory patent infringement,
then any patent licenses
granted to You under this License for
that Work shall terminate
as of the date such litigation is
filed.

4. Redistribution. You may reproduce and
distribute copies of the
Work or Derivative Works thereof in
any medium, with or without
modifications, and in Source or Object
form, provided that You
meet the following conditions:

(a) You must give any other recipients
of the Work or
Derivative Works a copy of this
License; and

(b) You must cause any modified files
to carry prominent notices
stating that You changed the
files; and

(c) You must retain, in the Source
form of any Derivative Works
that You distribute, all

copyright, patent, trademark, and
attribution notices from the
Source form of the Work,
excluding those notices that do
not pertain to any part of
the Derivative Works; and

(d) If the Work includes a "NOTICE"
text file as part of its
distribution, then any Derivative
Works that You distribute must
include a readable copy of the
attribution notices contained
within such NOTICE file, excluding
those notices that do not
pertain to any part of the
Derivative Works, in at least one
of the following places: within a
NOTICE text file distributed
as part of the Derivative Works;
within the Source form or
documentation, if provided along
with the Derivative Works; or,
within a display generated by the
Derivative Works, if and
wherever such third-party notices
normally appear. The contents
of the NOTICE file are for
informational purposes only and
do not modify the License. You may
add Your own attribution

notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license

agreement you may have executed
with Licensor regarding such
Contributions.

6. Trademarks. This License does not
grant permission to use the trade
names, trademarks, service marks, or
product names of the Licensor,
except as required for reasonable and
customary use in describing the
origin of the Work and reproducing the
content of the NOTICE file.

7. Disclaimer of Warranty. Unless
required by applicable law or
agreed to in writing, Licensor
provides the Work (and each
Contributor provides its
Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF
ANY KIND, either express or
implied, including, without
limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT,
MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely
responsible for determining the
appropriateness of using or
redistributing the Work and assume any
risks associated with Your exercise of
permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or

rights consistent with this

License. However, in accepting such obligations, You may act only

on Your own behalf and on Your sole responsibility, not on behalf

of any other Contributor, and only if You agree to indemnify,

defend, and hold each Contributor harmless for any liability

incurred by, or claims asserted against, such Contributor by reason

of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following

boilerplate notice, with the fields enclosed by brackets "[]"

replaced with your own identifying information. (Don't include

the brackets!) The text should be enclosed in the appropriate

comment syntax for the file format. We also recommend that a

file or class name and description of purpose be included on the

same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright Massol! Why not copyright myself?

This portion of text has been copied from the [Clirr's contributing page](#).

Licensing does matter and can get very confusing to maintain. Handing over copyrights to Massol keeps things simple for us to manage licensing issues. We do this for free and do not want to waste time on legal issues and managing who has copyright of which parts of the code. The only safe option is to have people hand over copyright to a person (like Massol) or an organisation (like Apache).

Some people feel that handing over copyright to Massol limits their rights in the code they contribute.

In fact it doesn't. Think about it: You give copyright to Massol, Massol immediately gives you the right to use the code under the ASL. What have you lost? You can still

- claim authorship on the [Credits](#) page and in JIRA issues. In addition your name will be added to [SVN](#) commits
- redistribute the code in source or binary form (provided the terms of the ASL are met).
- use the code in a commercial environment or link it into IDEs.
- fork the codebase if you are not happy with the way Massol is running the project.

Because the code is licensed under the ASL, the only thing you give up by assigning copyright to Massol is the right to veto a re-licensing of the code. For example Massol could re-license Cargo to another open source license without having to contact everybody who has ever contributed. Note that you would not lose any of the work you (and others) have done as it would still be licensed under ASL - noone can ever take these rights away from you!

All that said, the reason I decided to Copyright Cargo under my name is because I didn't know what other Copyright to use... Saying "The Cargo team" does not mean anything and does not solve the issue mentioned above. We can't license it to "Codehaus" either as Codehaus is not offering this service. Ideally we'd need a third party not-for-profit organization who could handle this for us (get signed CLAs, ensure code is clean, offer legal protection, etc). If anyone has any idea, please send it on the mailing list. I've always been uneasy about copyrighting this under my name and I'd love to find a better solution.

Small update: on May 2012, we have had discussions with Codehaus; and unfortunately as "Codehaus Foundation" is not a valid legal entity for copyrights it cannot be used.
