

CARGO 1.2.4 is now available

Dear CARGO users

After about one month from the last release, CARGO 1.2.4 is now here! It comes with three important new features:

- WebLogic 12.x support has been added ([CARGO-1132](#))
- Geronimo 3.x is now supported ([CARGO-1126](#))
- Geronimo 2.x and 3.x containers are able of working with existing standalone configurations ([CARGO-1127](#))
- Jetty 8.x now supports ServletContainerInitializers ([CARGO-1133](#))

Apart from that, this versions also comes with some bug fixes:

- Exception messages when the user defines no ContainerId but uses a ZipUrlInstaller or ArtifactInstaller have been improved ([CARGO-1128](#))
- Exception messages when one attempts to use a local deployer for a non-existing directory have been improved ([CARGO-1131](#))
- Cargo plugin does not expect to be executed from inside .jar anymore ([CARGO-1129](#))

Full release notes are accessible on <https://jira.codehaus.org/secure/ReleaseNote.jspa?version=18669&styleName=Html&projectId=10730>

To try this new version:

- Users of the Maven2/Maven3 plugin simply need to use the CARGO plugin version **1.2.4**.
- Users of the Java API can download the new Uberjar from <http://repo1.maven.org/maven2/org/codehaus/cargo/cargo-core-uberjar/1.2.4/cargo-core-uberjar-1.2.4.jar>
- Similarly, users of the ANT tasks can download the new ANT tasks from <http://repo1.maven.org/maven2/org/codehaus/cargo/cargo-ant/1.2.4/cargo-ant-1.2.4.jar>

Enjoy!
