

GeoTools Release Week

It's been a big week for GeoTools releases, with both 2.6-RC1 and 2.5.8 hitting the streets. GeoTools 2.5.8 has seen a number of changes including:

- Improvements Shapefile locking
- Various fixes to ImageMosaic stability
- Support for JDBC aggregate functions

To try out the latest release, head on over to the [downloads page](#) .

GeoTools 2.6 has finally reached release candidacy, with the resolution of a few key issues, including:

- Solving a crash when reading ECW files
- Updated the WCS 1.1 EMP model
- Resolved a reader exception caused by FastBBox filters
- The long-awaited return of the Javadoc build

For more information look to the [2.6.x branch page](#).
