

IzPack 5.0.0-beta2 available

On behalf of the [IzPack](#) team, I am pleased to announce the availability of **IzPack 5.0.0-beta2!**

This release is a bit less buggy since it corrects [IZPACK-612](#), thanks to Michael for his feedback.

We will try to resolve tickets and release new beta version rapidly so keep testing and give us feedback (or better, some patches with nice tests).

Warnings

1. You **will** inevitably encounter bugs and regressions in this release.
2. IzPack 5.0.0 is still a **long** way.
