

Boo Primer

Boo Primer

by Cameron Kenneth Knight

A version is also available in *Portuguese*, translated by Cássio Rogério Eskelsen.

A version is also available in *Traditional Chinese* (), translated by Yan-ren Tsai aka Elleryq.

The english version is downloadable in a [PDF](#).

1. Starting Out
 - Hello, World!
 - Comparing code between Boo, C#, and VB.NET
 - Booish
 - Exercises
2. Variables
 - Using Booish as a Calculator
 - Types of Numbers
 - Characters and Strings
 - String Interpolation
 - Booleans
 - Object Type
 - Declaring a Type
 - List of Value Types
 - Exercises
3. Flow Control - Conditionals
 - If Statement
 - If-Else Statement
 - If-Elif-Else Statement
 - Unless Statement
 - Statement with Modifier
 - Not Condition
 - Combining Conditions
 - Exercises
4. Flow Control - Loops
 - For Loop
 - While Loop
 - Continue Keyword
 - While-Break-Unless Loop
 - Pass Keyword
 - Exercises
5. Containers and Casting
 - Lists
 - Slicing
 - Arrays
 - List to Array Conversion
 - Casting
 - Hashes
 - Exercises
6. Operators
 - Mathematical
 - Relational and Logical
 - Types
 - Primary
 - Unary
 - Difference between Pre and Post Increment/Decrement
 - Exercises
7. Functions
 - Builtin Functions
 - Defining Your Own Functions
 - Arguments
 - Function Overloading
 - Variable Arguments
 - Exercises
8. Classes
 - Defining a Class
 - Fields and Properties
 - Class Modifiers

- Inheritance
- Interfaces
- Exercises
- 9. Methods
 - Defining a Method
 - Class Constructor and Destructor
 - Method Modifiers
 - Member Visibility
 - Declaring Properties in the Constructor
 - Exercises
- 10. Polymorphism, or Inherited Methods
 - Exercises
- 11. Structs
 - Declaring a Struct
 - Exercises
- 12. Namespaces
 - Declaring a Namespace
 - Importing Another Namespace
 - Exercises
- 13. Enumerations
 - Declaring an Enumeration
 - Exercises
- 14. Exceptions
 - Catching Exceptions
 - Raising Exceptions
 - Exercises
- 15. Functions as Objects and Multithreading
 - Exercises
- 16. Generators
 - Generator Expressions
 - Generator Methods
 - Exercises
- 17. Macros
 - print Macro
 - assert Macro
 - using Macro
 - lock Macro
 - debug Macro
- 18. Duck typing
 - Exercises
- 19. Using the Boo Compiler
 - Command-line Options
 - Using NAnt
- 20. Structure of a Boo Project
 - On the Project-level
 - On the File-level
 - On the Class-level
- 21. Documentation
- 22. Useful Links
