

WebLogic 12.1.x

 This page has been automatically generated by Cargo's build. Do not edit it directly as it'll be overwritten next time it's generated again.

 If you are using the WebLogic 12 Developer's Edition, after you have downloaded the distribution, please remember to also configure WebLogic. You can read http://www.oracle.com/webfolder/technetwork/tutorials/obe/java/wls_12c_netbeans_install/wls_12c_netbeans_install.html for details.

Container Features

Feature name	Java	Ant	Maven2
Container Instantiation	 <code>ContainerFactory.createContainer("weblogic121x". ..)</code>	 <code><cargo containerId="weblogic121x".../></code>	 <code><contai rId></code>
Local Container			
Container Classpath			
Container Start			
Container Stop			
Container Timeout			
Embedded Container			
Installed Container	 <code>o.c.c.c.weblogic.WebLogic121xInstalledLocalContainer</code>		
Passing system properties			
Installer			
Remote Container			

Configuration Features

Feature name	Java	Ant	Maven2	Comment
Standalone Local Configuration for installed container	 <code>o.c.c.c.weblogic.WebLogic121xStandaloneLocalConfiguration</code>			
Standalone Local Configuration for embedded container				
Existing Local Configuration for installed container	 <code>o.c.c.c.weblogic.WebLogic9x10x103x12xExistingLocalConfiguration</code>			

Existing Local Configuration for embedded container				
Runtime Configuration				
Static deployment of WAR				
Static deployment of expanded WAR				
Static deployment of EJB				
Static deployment of EAR				
Static deployment of RAR				
Static deployment of files				
Static deployment of OSGi Bundles				

Deployer Features

Feature name	Java	Ant	Maven2	Comment
Installed Deployer	<code>o.c.c.c.weblogic.WebLogic9x10x103x12xCopyingInstalledLocalDeployer</code>			
Embedded Deployer				
Remote Deployer				

Other Features

Feature name	Java	Ant	Maven2	Comment
Debugging				

Supported Configuration properties

The tables below list both the [general configuration properties](#) as well as the container-specific ones.

Standalone Local Configuration Properties

For installed container `o.c.c.c.weblogic.WebLogic121xInstalledLocalContainer`

Property name	Java Property	Supported?	Default value
<code>cargo.hostname</code>	<code>GeneralPropertySet.HOSTNAME</code>		<code>localhost</code>
<code>cargo.java.home</code>	<code>GeneralPropertySet.JAVA_HOME</code>		<code>JAVA_HOME</code> version 6 or newer
<code>cargo.jvmargs</code>	<code>GeneralPropertySet.JVMARGS</code>		N/A
<code>cargo.logging</code>	<code>GeneralPropertySet.LOGGING</code>		<code>medium</code>

cargo.port.offset	GeneralPropertySet.PORT_OFFSET	✓	0
cargo.process.spawn	GeneralPropertySet.SPAWN_PROCESS	✓	false
cargo.protocol	GeneralPropertySet.PROTOCOL	✓	http
cargo.runtime.args	GeneralPropertySet.RUNTIME_ARGS	✓	N/A
cargo.servlet.port	ServletPropertySet.PORT	✓	7001
cargo.servlet.users	ServletPropertySet.USERS	✓	N/A
cargo.standalone.ignoreNonExistingProperties	GeneralPropertySet.IGNORE_NON_EXISTING_PROPERTIES	✓	N/A
cargo.weblogic.administrator.password	WebLogicPropertySet.ADMIN_PWD	✗	weblogic
cargo.weblogic.administrator.user	WebLogicPropertySet.ADMIN_USER	✗	weblogic
cargo.weblogic.bea.home	WebLogicPropertySet.BEA_HOME	✓	N/A
cargo.weblogic.server	WebLogicPropertySet.SERVER	✓	server

Datasource and Resource configuration

In addition to the forementioned properties, this container configuration can also set up datasources and/or resources.

For more details, please read: [DataSource and Resource Support](#).

Existing Local Configuration Properties

For installed container `o.c.c.c.weblogic.WebLogic121xInstalledLocalContainer`

Property name	Java Property	Supported?	Default value	Javadoc
cargo.hostname	GeneralPropertySet.HOSTNAME	✓	localhost	★
cargo.java.home	GeneralPropertySet.JAVA_HOME	✓	<i>JAVA_HOME version 6 or newer</i>	★
cargo.port.offset	GeneralPropertySet.PORT_OFFSET	✓	0	★
cargo.process.spawn	GeneralPropertySet.SPAWN_PROCESS	✓	false	★
cargo.protocol	GeneralPropertySet.PROTOCOL	✓	http	★
cargo.servlet.port	ServletPropertySet.PORT	✓	7001	★
cargo.weblogic.administrator.password	WebLogicPropertySet.ADMIN_PWD	✓	weblogic	★
cargo.weblogic.administrator.user	WebLogicPropertySet.ADMIN_USER	✓	weblogic	★
cargo.weblogic.bea.home	WebLogicPropertySet.BEA_HOME	✓	N/A	★
cargo.weblogic.server	WebLogicPropertySet.SERVER	✓	server	★
