

# IDE-5

## NUnit Support for Visual Studio

**SR-IDE-5.1:** The IDE will detect NUnit tests and display a hierarchy of test classes and methods to the user.

**SR-IDE-5.2:** User can run all tests in a batch.

**SR-IDE-5.3:** User can click on and run an individual test class or method.

**SR-IDE-5.4:** The IDE will display test results within the output console.

**SR-IDE-5.5:** User can generate site documentation of unit tests results.
