## GMavenPlus Home

### Commonly sought links

- Basic compilation instructions are on the [Usage](#) page (assumes a joint Groovy-Java project). If you're doing a pure Groovy project, check out [this](#) example.
- Script execution instructions can be found [here](#).
- InvokeDynamic instructions can be found [here](#).
- Android instructions can be found [here](#).
- Even more examples can be found on the [Examples](#) page.

### More links

- Trying to decide if GMavenPlus is right for your project? Check out [Choosing Your Build Tool](#).
- Migrating from GMaven? Check out [GMaven Migration](#) .
- Think you found a bug? Ask about it on our mailing list ([user@gmavenplus.codehaus.org](mailto:user@gmavenplus.codehaus.org)) or open a Jira and we'll look into it.
- Looking for project reports? Check out the [Maven site](#).
- For those curious, there's some background on the project in the [About](#) page.
- Interested in [Contributing](#)?
